THE INFANCY PASSED.

Southern States Taking the Lead in New Industries.

NEW ONES ON FOOT.

They Are of All Kinds, but Cotton Mills Are the Most Prominent—Brighter Prospects Never Occurred in Any Country.

Baltimore, March 12.—Though many years must pass before any southern state will possess such a variety and so great a number of industries scattered all over its territory that the general activity of the whole state will not permit anyone undertaking to be distinctive, great strides in that direction have already been made. The Manufacturers' Record, alluding to this, points out that the south has already its centers of manufacturing of one kind or another, which come to mind whenever the name of certain localities are mentioned. Newport with its shipbuilding, Charlotte with its cottonmills, Birmingham with its iron and steel, Mount Pleasant with its phosphates, Corsicana with its petroleum, Pocomoke with its coal, and Beaumont with its lumber, are illustrations.

Of course, there are other places; Richmond with its locomotive works, its tobacco factories, woodenware works, iron-working establishments, shipyard and abattoirs; Norfolk with its lumber mills, woodworking establishments, machine shops and other activities growing from its importance as a railroad terminal and point of export; Anniston with its iron interests and car shops; Knoxville, Chattanooga, Nashville, Greensboro, Augusta, Georgetown, Brunswick, New Orleans, Little Rock, Houston and Galveston where diversification of industries has assumed more or less large proportions, while in other cities and towns too the industrial and commercial life has been quickened, and week by week one undertaking after another is entering the field as business organizations are putting forth efforts in support of establishing industries and for the purpose of inducing others to come in their direction.

The experimental stage of the south's return for a cultivation of its industrial energies has been passed. With increasing railroad facilities, with a market close at hand made by the development of the large enterprises dealing with raw material from the forests, fields and the mines, the reputation of cities already established in special lines must become greater, while the number of cities occupied in diversified industries and the number of those industries must increase. The time required for a realization of the possibilities in this direction is determined by the southern people themselves.

For the impetus given to industrial activity in the south the developments of iron manufacturing have been largely responsible. It has become of such importance that the south is now virtually interested in everything pertaining to iron at home and abroad.

Industrial Notes.

Local capitalists may erect another cottonmill at Denison, Tex.

Corsicana, Tex., is in a fair way to have another oil refinery.

At Columbia, S. C., the charters of three cottonmills were sanctioned with a combined capital of \$750,000.

Farmers around Raleigh, N. C., will plant more cotton this year than tobacco on account of the low price of tobacco last year.

A cottonmill with a paid up capital of \$20,000 was organized at Valdosta, Ga. A packinghouse is the latest possibility at Corsicana, Tex.

A yarnmill will be erected at Valdosta, Ga.

Hillsboro, Tex., has raised \$50,000 for a cotton mill.

The charter for a cotton mill at Waynesboro, Ga., has been granted and \$50,000 of the \$100,000 stock has been secured.

A 100-barrel flour mill is an assured fact at Lancaster, Tex.

A cotton mill with \$100,000 capital stock has been perfected at Griffin, Ga.

The shipment of a carload of flour has been made from Plano, Tex., to Cuba.

A 4000-spindle cotton mill will be erected at Tennille, Ga.

The oil wells in the Osage Indian reservation are on a paying basis.

Becoming Alarmed.

Washington, March 12.—The likelihood that congress will not at this session agree upon an army reorganization measure, on account of the conflicting interests involved and the powerful opposition manifested in various quarters to certain features of Secretary Root's comprehensive reform proposition, has alarmed the authorities over the possible failure of the plan to increase the artillery with the strength commensurate with the ordinary care and maintenance of a sea coast defense works already established. An effort is under way to

arate artillery clauses which are wholly unobjectionable and unlikely to cause much debate from the other portions of the house and senate bills which are sure to lead to a long and stubborn controversy.

Epidemic of Smallpox.

Middleboro, Ky., March 12.—An epidemic of smallpox is prevailing at Barbourville, Ky. The malady has become so serious that all schools have been closed. No deaths have yet been reported.

FREE STATE CAPITAL.

General Roberts Is Pushing His Way There With Good Progress.

London, March 12.—At the present rate of progress, Roberts should be in Bloemfontein by Wednesday, though all calculations may be upset by developments of more strenuous resistance than the Boers have so far attempted. The distance between Roberts and the Free State capital now is so small—only about 25 miles—that it is apparent the Boers either contemplate making a determined stand on the outskirts of town, or for strategic reasons, best known to themselves, are allowing Roberts to occupy it after merely harassing his advance. The numerical superiority of the forces of General Roberts leaves no doubt in the minds of the critics here that Roberts will accomplish his immediate object, the occupation of Bloemfontein.

The commander-in-chief's latest dispatch announces Gatacre at Bethulie bridge and specials say that Gatacre's command of the bridge approaches puts the Boers in that vicinity between two British forces at Aasvogel kop, whence General Roberts sent his last cable message, being 100 miles almost due north of Bethulie. However, there is a large plain between them, and the main body of the Boers are now confronting Gen. Roberts with ceaseless activity may be quite able to cover the retreat of the burghers confronting Gatacre. Once the British are in possession of the railroad from Bethulie to Bloemfontein junction, the Free State capital for Gatacre and Roberts will be a matter of a few days. Rumors of relief of Mafeking continue to circulate, but fail of confirmation.

From Natal, which Buller so erroneously declared was free of Boers, and from Cape Colony, where Kitchener's stern hand is upon rebellion there, is no news of any importance.

The war office has issued the following dispatch from Aasvogel kop, under date of March 12:

"We were unopposed during the march yesterday. The officer who was left at the last camp to record the list of casualties has not yet arrived. The following additional casualties are known, however: Killed—Lieutenants F. N. Parsons and A. B. Coddington of the Essex regiment. Wounded—Lieutenants C. Berkeley, seriously, Lloyd Arm and G. H. Raleigh. Gatacre reports that he was within a mile of Bethulie bridge yesterday. The bridge was partially destroyed and the enemy holding the opposite bank."

Irish Flag to Be Hoisted.

London, March 12.—The lord mayor has directed the flag to be hoisted over the Mansion House on St. Patrick's day in recognition of the bravery of the Irish troops in South Africa.

WAS BUBONIC PLAGUE.

Investigation of the Dead Chinese in the City of San Francisco.

San Francisco, March 12.—At a special meeting of the board of health, held to consider the plague situation, Dr. Kinyon, the Federal quarantine officer, reported all animals at the quarantine station which were inoculated with the virus from the body of the Chinese who expired a few days ago under suspicious circumstances, had died with the exception of a monkey and it was in a dying condition. The autopsy on the rats and guinea pigs showed they had developed symptoms of genuine bubonic plague.

After discussing the matter the board decided the Chinaman had been afflicted with the plague.

A request was made for 100 volunteers from among the medical profession to make a house to house examination and aid the board in thoroughly fumigating and disinfecting the entire quarter.

A quarantine has not been declared, but the board adjourned to meet later, when it is expected such action will be taken.

Two Baseball Leagues.

Chicago, March 12.—The American Association of baseball clubs, backed by the National league, will furnish baseball the coming season in Baltimore, Washington, Louisville, Cleveland, Chicago, St. Louis, New York and Philadelphia. In Baltimore, Washington, Louisville and Cleveland the grounds, made tenantless by the elimination of these cities from the National league circuit, will be used. In the remaining cities National league grounds will be used as a schedule will be arranged whereby the dates of the two organizations will not conflict.

Red Ash Victims Recovered.

Charleston, W. Va., March 12.—It is believed all bodies in the Red Ash mine have been recovered. Two more bodies have been recovered, which is believed to be the last in the mine. The full list shows 40 dead and 6 injured, two of the latter being in the hospital and will probably recover. The cause of the explosion is still a matter of theory and probably will never be determined.

The Netherlands' New Minister.

Washington, March 12.—Baron Gevers, the new minister from The Netherlands, will be officially received tomorrow. He brings authenticated copies of the three treaties embodying the agreements of The Hague peace conference which he will file with the state department.

Favor of Reciprocity Treaties.

New York, March 12.—The Herald's Washington special says President McKinley has taken a firm stand in support of the treaties for the reciprocity now pending in the senate.

TWO ARMED FORCES.

Both Governors Are Now Backed by State Guards—Arrest of Powers and Davis and Their Pardon by Gov. Taylor.

Frankfort, March 12.—Political affairs in this state are rapidly reassuming a threatening condition. Acting under orders from Governor Taylor several companies of the state guard, whose officers recognized the Republican executive, are moving toward Frankfort. On the other hand those companies recognizing Governor Beckham are tendering their services to Adjutant General Castleman and others are being formed in several towns of the state.

A conflict between the rival forces was narrowly averted Saturday night by the flight of Secretary of State Caleb Powers and Captain Davis, who were in the statehouse protected by soldiers from the service of warrants charging them with being accessories to the assassination of Governor Goebel. Where the next point of contact will occur no one can predict.

The process of adjudicating the governorship issue has gotten no farther than a decision by the circuit court at Louisville which was in favor of the Democrats. It is reported the case will be taken to the higher courts at once but the probability that a final decision will be awaited peacefully by both sides seems less than it did a few weeks ago.

The first move on the part of Governor Beckham's followers toward the formation of a state guard was taken here Sunday. City Clerk Ben Marshall circulated a paper and enlisted the requisite number of men who are to compose the new company. The guns for this company have been provided by citizens here, most of them being either needle guns or Winchester.

Sunday afternoon a report gained currency that Governor Taylor had given his soldiers orders to arrest Governor Beckham and other officers of the Democratic state government. On account of this report the men enlisted by Capt. Marshall, were assembled at the city hall, armed and sworn in as special police for the purpose of protecting the Democratic officers who are still quartered at the Capitol hotel. A large number of citizens also volunteered and were assigned to various posts in the vicinity of the hotel to cover a resistance in case the talked of arrests were attempted.

Governor Taylor's soldiers who are on guard at the statehouse were reinforced by the arrival of the Barboursville company of 71 men, all of whom were fully armed and equipped. More troops are looked for.

Governor Beckham has appointed Col. Davis R. Murray of Clover Point, assistant adjutant general, with the rank of colonel, and he was sworn in.

According to a statement made by Governor W. S. Taylor Sunday night to a correspondent of The Commercial, he has granted a pardon to each of the persons for whom warrants have been issued charging them with being accessories to the assassination of Governor Goebel, including Secretary of State Caleb Powers and ex-Secretary of State Charles Finley. In this statement Gov. Taylor recites the conditions under which he claims to have been elected and charges the Democratic contestants for state offices with conspiracy to secure control of the government.

In the interview Governor Taylor is quoted at length in which he reviews the entire political trouble from the election to the present time. He assails the courts and says a man, unless of Democratic persuasion, cannot get justice in them. The interview closes as follows:

"Under this state of affairs, believing that each one of said persons are innocent of any complicity in said crime, and further believing that the enormous reward will secure the conviction of these men, however innocent, I deemed it my solemn duty to issue pardons to them in order that these political conspirators might not be enabled to deprive them of their liberty or life. The guilty men should be punished; but designing men controlling the courts should not be enabled to shed the blood of innocent men and if it is in my power to prevent it I pledge myself in the name of God and humanity that it shall be done."

Only two more days remain for the legislative session, but the developments of these two days are looked forward to with apprehension by leaders of both sides.

The Democratic partisans say that should the militia attempt to interfere with the session, persistent rumors of which were in circulation all Sunday, it will be next to impossible to avert bloodshed. The Republican officials, however, deny that such action has ever been contemplated and say the legislature will not be molested in any way.

Several Republican members of the legislature left the city Sunday presumably for their homes.

Harland Whittaker and W. H. Coulton under arrest here for the Goebel assassination, have been removed to Louisville for fear of being released by militia under Republican control.

SHELDON'S DAILY.

He Has Taken Charge of the Topeka Capital for a Week.

Topeka, March 12.—Rev. Charles M. Sheldon, author of "In His Steps," and other religious stories, will today begin the actual work of demonstrating his idea of what a newspaper should be. The first edition of the Topeka Capital under the direction of the preacher-novelist, will appear tomorrow morning. The Capital publishes no Monday morning edition.

The members of the Capital staff, at the request of Mr. Sheldon, attended services yesterday at his church, the Central Congregational. Most of the newspaper correspondents who have arrived in the city to report the incidents in the week of Mr. Sheldon's experiment of newspaper making, also attended this service.

All the Capital's regular staff of editors and reporters are retained with the single exception of General Hudson, editor-in-chief, who will take a week off. Many religious enthusiasts have offered their services to Mr. Sheldon as reporters, but all of these offers were declined, believing that the regular staff could be

REV. CHARLES M. SHELDON.

moulded to his ideas easier than raw recruits could be trained in newspaper work for a single week's effort.

Three nights last week the minister remained in the Capital office familiarizing himself with the details of newspaper making. As to the makeup of the paper he has ideas of his own and these will be carried out. All "scare" news will be at a discount, and little or no news will appear on the first page, which will be devoted to special articles on the science of government, the need of reforms in city, state and national affairs and other kindred topics. Many persons of prominence will contribute to this page. State temperance agitators, it is said, are to be given a free hand and something of a shaking up of politicians is predicted. All advertising in any way objectionable, according to the minister's views, has been refused.

Mr. Sheldon, who resides in the outskirts of Topeka, has rented a room down town and says he hardly expects to be at his home a single time during the week. He will take his meals at a restaurant near the Capital office during the week. Mr. Sheldon says he will remain in the Capital office all night until all editions shall have gone to press.

There will be the usual Sunday edition of The Capital but it will be printed early Saturday night, and all the work, even to the circulating by the carriers may be finished by midnight.

Information as to Mediation.

Washington, March 12.—The senate adopted the resolution offered by Mr. Allen of Nebraska requesting the president to inform the senate "whether or not any communication has been received by this government from our consular representative at Pretoria, embodying a request of the presidents of the South African republics for mediation or intervention with a view to ending the war now in progress between these republics and Great Britain, as reported in the public press, and furnish the senate with copies of such communication or communications."

Double Murder and a Lynching.

Waldosta, Ga., March 12.—Word has been received here of a double murder and lynching near Jennings, Fla. Two white men by the name of Carver were killed by a negro whose name could not be learned. The negro was captured by the sheriff. A mob quickly gathered, took the negro away from the officers and swung him to a tree.

Actor Little Dead.

QUIETED DOWN.

Not So Much War Talk Going on at Frankfort.

Frankfort, March 12.—The war scare here has again apparently flattened, though the leaders on both sides still express grave fears as to the ultimate outcome.

The belief among the Republicans that attempts will be made to arrest some Republican legislators in connection with the assassination of Governor Goebel, has resulted in several members leaving town. Democratic officials refuse to either confirm or deny that such warrants have been issued, though admitting that more arrests will take place within a few days.

It is asserted that Governor Taylor is being urged to move the executive offices to London where he will be safe from possible arrest, but that so far he has refused to entertain the idea.

Both houses of the legislature met in the statehouse this morning. In anticipation of a possible attempt by the state troops to prevent the meeting quite a crowd gathered around the statehouse square at the hour of meeting, but the members of the legislature were allowed to meet without molestation.

The squad of militia, under Lieutenant Peak, who started for London on Saturday as an escort for Secretary of State Powers and Captain Davis, have returned to Frankfort. Outside of this, however, no reinforcements have arrived and it is stated now that no more are expected.

Adjutant General Collier has arrived here from Louisville and immediately held a conference with Governor Taylor. When seen afterwards Collier said Taylor had no intention of leaving Frankfort or bringing any more troops here at present. Shortly after Collier's arrival at the state grounds Sheriff Suter appeared and assured Collier that no warrant for his arrest had been issued. Collier smilingly assured the sheriff he would be easily found in case a warrant was issued.

Adjutant General John B. Castleman arrived here at 10 o'clock this morning and has been in conference with Governor Beckham and other leaders since that hour organizing a new state guard under Beckham and Castleman was proceeding.

Several companies in the state guard, as originally constituted, have gone over to Beckham and it is understood a new company has been organized here and the new companies enlisted at Louisville and other points in the state will be mustered in at once. Plans for the organization of a state guard are being perfected in anticipation of the passage of the Triplet resolution in the house, authorizing Castleman to arm and equip a military recognizing Beckham as governor and carrying a special appropriation of \$100,000 to put it into effect.

Suter Departs With Prisoners.

Lexington, Ky., March 12.—Secretary of State Powers and Captain Davis were secretly taken from jail between midnight and daybreak this morning and in charge of Sheriff Suter of Frankfort driven overland to Versailles, where it is reported, they were taken on a train to Louisville. The officers here will say nothing and the guards at the jail profess ignorance of the movements of Suter and his prisoners. Their removal has caused much excitement.

Prisoners Reach Louisville.

Louisville, March 12.—Secretary of State Powers and Captain Davis were brought here from Lexington and placed in the county jail. The prisoners were driven from Lexington to Lawrenceburg, where they took the Louisville Southern train for this city.

BURNED TO DEATH.

Fifteen Persons Perish in a Tenement House Fire at Newark.

Newark, N. J., March 12.—Fifteen persons, a majority of whom were children, burned to death in a tenement house at Morris and Fourteenth avenues about 5 o'clock this morning. Thirteen bodies have been recovered from the ruins.

The building was a 3-story frame structure formerly used as a church but transformed into a tenement house with small rooms, scarcely 8x10 feet in dimensions, opening into narrow hallways on both the second and third floor, forming a veritable fire trap.

This is in the heart of the Italian district and the greatest excitement prevailed, and feeling became greatly intensified when it became known the fire was of incendiary origin, and within 12 minutes of the time when a report was in circulation that men and women, well nigh crazed by grief, ran tearing around in the streets looking for a man responsible for a frightful tragedy and threatening all sorts of dire vengeance.

Vinto Credavo is locked up on suspicion of having set fire to the building. Credavo with his wife and two children occupied the rear portion of one of the stories. He was arrested on statement made by Virginia di Prula, who was a boarder in the house. Di Prula told Captain Edwards, that when he was awakened by smoke he found Credavo and his family fully dressed and ready to leave the burning building. When Credavo was taken to the stationhouse became much excited, but denied he had set fire to the building or had any knowledge as to the knowledge as to the origin of fire.

Sheriff Wounded.

Tecumseh, O. T., March 12.—Roger Bruno, alias Jim the tough, arrested for horse stealing and murder, attempted to escape from Sheriff Grace. The men had a fierce struggle. Grace succeeded in killing Bruno, but was himself seriously, if not fatally wounded.

BOTH WERE DISGUISE.

Powers and Davis Arrested by Louisville Police and Strongly Guarded.

Lexington, March 12.—Sunday brought a hopeful and encouraging calm to the storm which for three hours on Saturday night threatened to burst over Lexington. Impulsive action, under perhaps misguided impressions, came near precipitating bloodshed, which would not have ended with the threatened riot at the depot when Secretary of State Powers and Captain Davis were arrested by the Lexington officials. The reports that mountain men were preparing to rescue the prisoners from jail had caused preparations for desperate resistance on the part of local officers, who are mostly Goebel men. What might have resulted from such an attempt to take the prisoners from jail is unpleasant to contemplate.

The adopting of a disguise by Davis and Powers in order to get out of Frankfort puts an ugly phase on the matter for the prisoners in the opinion of some of their friends here, although they explain that they did so merely to get away from the local influences which they allege would work to their detriment in securing a fair trial. Both tacitly admit now that in this way they may have made a mistake. Both strongly assert their innocence of any connection with the murder of Governor Goebel and insist that they have no fear whatever as to the outcome.

Sheriff Suter of Franklin county, who came here Sunday, has returned to Frankfort. He brought the warrants with him that were issued in Franklin county. The men were arrested here on warrants sworn to before Squire Frank Graves of this city, and made returnable before County Judge Bullock.

Sheriff Bosworth, of this county, says he will give the men as speedy examining trial as they desire, but he does not think it proper to have their trial for several days yet on account of the excitement.

Sheriff Suter stated that he did not know when the men would be taken back to Frankfort. This would not be done, however, until after the examining trial here, when the local courts will order that the prisoners be taken to Frankfort. All is quiet here, but soldiers are still guarding the jail.

Colonel Roger Williams of the second Kentucky regiment was wired to return from Connorsville, Ind., but has not answered. Captain Longmire who is acting under orders of Governor Beckham stated that in case Colonel Williams comes he will take no orders from him. In this case there will be a conflict of military authority and if Colonel Williams decides to take the armory he will have to do it by force. This is not likely to be pressed as the prisoners may be removed by the time Colonel Williams returns.

It was reported that Governor Beckham may move the state capital here, but this is nothing more than a rumor so far.

Adjutant General Castleman is here and says he has issued no orders and will issue none. He says he will do all in his power to preserve peace.

Captain Longmire received orders Sunday night from Assistant Adjutant General Dixon under the Taylor administration, to disband the soldiers here. He ignored the orders.

Robert Kennedy of this city, is acting assistant adjutant general under Castleman and cooperating with Captain Longmire.

Fight With an Unknown Man.

Evansville, Ind., March 12.—John Baker is dying and Hiram Harris is severely wounded as a result of an encounter with an unknown man at Cedar Grove, three miles from this city Sunday. Baker and Harris met the man, who was with his wife, and became involved in a quarrel with him. The man pulled his revolver and began firing. Baker was fatally wounded and Harris was shot in the right arm, the member being so shattered that amputation will be necessary. The stranger has not been apprehended.

Prince Clarence Sued.

Kingston, March 12.—Prince Clarence, chief of the Mosquito territory and protégé of the British government who resides in Jamaica, has been sued by local merchants. His solicitors denies the jurisdiction of the Jamaican courts. This raises an important question, as Prince Clarence is considerably in debt and the settlement of the issue is important to him.
